Baby Alpaca

Once upon a time in the highlands of Peru, there lived a community of skilled artisans who were renowned for their mastery in weaving and creating exquisite textiles from the softest baby alpaca wool. These artisans led by the MENZA creative team, were about to embark on a journey that would revolutionize their craft and bring a touch of luxury into your homes.

The MENZA vision to create something truly extraordinary and washable – a collection of baby alpaca luxury cushions and plaids that would not only showcase the unparalleled quality of their craftsmanship but also introduce a new and breathtaking design to the world.

As the first baby alpaca luxury cushions and plaids emerged from the looms, our vision had been transformed into reality, and the results were nothing short of spectacular. Each cushion and plaid told a story of the Andean highlands, inviting people to experience the beauty and tranquility of this magical place in the comfort of their own homes.

The collection was named "Andean Elegance," a testament to the sophistication and refinement that the artisans had achieved in their craft. The cushions, adorned with intricate patterns and made from the softest baby alpaca wool, became coveted treasures for those seeking a touch of luxury and a connection to the rich cultural heritage of Peru.

BACK TO NATURE

menza
classic love, modern living

*This is far away the most excited, natural
and exclusive we've ever made.*

Travertine has traditionally been used for facades, wall cladding, and flooring, but it became trendy in furniture making and home decor during the mid to late twentieth century. As a result of the unwavering obsession with the interior style of yesteryear, travertine is seeing a resurgence in popularity in the form of statement-making tables such as travertine coffee tables or nowadays also in vases.

At MENZA we believe that the story of travertine tells the tale of our values too. That is the motivation behind our latest TIVOLI collection crafted and methodically designed travertine objects. We would like to bring this ancient stone that has stood the test of time to your home and allow you to enjoy it just as the ancient Romans and Egyptians did, once upon a time.

We present to you, the new TIVOLI collection created by MENZA. Luxury unique items, that can be used as a stand-alone or in a collection groupe, easy to combine with the similar black wood collection.
